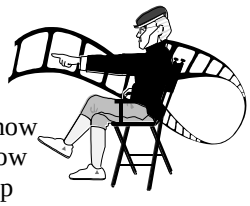
Write a New Law



The projects above may be completed for novels read independently in Mr. Ott's Language Arts classes.

One Project is due each semester and will be factored as a Summative Assessment Grade.

Project Guidelines:

The title and author of the book must appear somewhere on the project. Likewise, a written connection between the book and the project should appear somewhere on the project. Written projects should be typed and/or presented on poster board. Students should not present any project that does not meet the criteria in the #3 column of the evaluation rubric on the reverse of this page. Since all projects must be approved prior to their presentation, **they should be brought to school for review at least 3 days prior to the student's scheduled presentation.** This will give the student the opportunity to get constructive feedback in order to make improvements before a grade is assigned. All books read for projects should be approved by Mr. Ott, and appropriate reading log **must** be completed as book is in progress. **Project grade will account for 1 Summative Assessment Grade** and will consist of two parts: **50% - physical project, 50% - classroom oral presentation**. It is the student's responsibility to pace the completion of his/her projects. Presentation dates will be posted on the Class Website at least **6 weeks** in advance of the first scheduled project. Failure to complete project and presentation on time will result in a loss of **5 points per calendar day** that the project is not suitable for presentation. **In addition to the acceptable product, on the date of their presentation, students will turn in a signed and completed reading log along with a typed copy of their oral presentation. Failure to possess any of these three elements on time will result in a late presentation of their work and will result in a loss of credit as defined above.**
